How does Donarius Handle Online Giving?

Donarius has two ways of handling online giving:

a) by using our own giving platform – NuverbPay
b) by importing donations from an organization's choice of platform

NuverbPay:

NuverbPay has these advantages:

a) Securely accept credit card and ACH/EFT donations.
b) Receive one-time and recurring donations. (monthly, weekly, 1st and 15th of the month, bi-weekly, etc.)
c) After starting recurring donations, a donor can change the amount/frequency/date or even stop it entirely.
d) Any credit card or bank account a donor uses will be saved so that next time they don't need to re-enter it. (Note: credit card/bank data is tokenized to protect you.)
e) We are partnering with Helcim Inc, so can offer you *Interchange* pricing. (Most other companies charge 2.9% or more.) Your cost will be approximately:

	Credit Card	**ACH/EFT**
Canada	1.85%+25¢	0.5%+8¢
USA Verified 501c3	2.17%+25¢	
USA non-verified	2.65%+25¢	

f) Your fees can be even less by asking donors to cover them.
g) Online donations are deposited to your organization's bank account.
h) A record of all donations will be automatically downloaded into Donarius.
i) Your donation page can be customized with a logo, your organization's name/address and the categories you want donors to give to.

In order to use NuverbPay you need to:

a) Purchase the latest version of Donarius and add the **Pre-authorized Deposits/Online Donations** module.
b) Sign up for a merchant account with Helcim Inc. To get the above rates: when asked **"What type of products and services do you provide?"**, choose **"Religious Organizations - 8661"** if you're a church otherwise choose: **"Charitable and Social Service Organization - 8398"**.
To get the best rate in the USA you also need to upload your 501c3 documentation.

Importing from other platforms:

Donarius is currently able to import from:

- **PayPal**
- **Vanco**
- **FortisPay**
- **eTransfers**
- **Givelify**
- **Tithe.ly**
- **Clover**
- **Txt2Give**
- **Parish Giving**
- **Kindrid Giving**
- **Stewardship Technology**
- **Stripe**
- **EFT Canada**
- **Elavon**
- **WeShare**
- **DonorBox**
- **Square**
- **CashApp**

To import you would do this:

1. Sign into your provider and create a report of donations received in a date range.
2. In Donarius, click on the link with your provider's name.
3. Select the report you created.
4. Click the **Import** button.

You can click here to see how this works for Tithe.ly. Other providers are similar.

Note: if your provider is not in the above list, contact us and we'll add it for you.
